

# Calendar Type Colors

This document provides a reference for all the colors used in the Calendar of Activities and Actions application. These colors are defined in `type-colors.ts` and are used to visually distinguish different types of calendar entries in the UI (activity cards and accordion headers).

## Color Reference Table NEW

| Type Key     | Color Preview                                                                       | Hex Code | Description                                                                                                                                            |
|--------------|-------------------------------------------------------------------------------------|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| submission   |    | #34a59e  | Submission of information. Reason: Like "Peer-Review," these colors are perceived as affirmative and progress-oriented, useful for submitting data.    |
| peerReview   |    | #84807F  | Peer review processes. Reason: Not like the rest, avoid association with other colors.                                                                 |
| report       |    | #3483a5  | Reports and documentation. Reason: Professional seriousness gives a feeling of trust and represents nature and confidence.                             |
| online forum |  | #E08475  | Online forums and discussions. Reason: Respect, unity.                                                                                                 |
| webinar      |  | #EFA52D  | Webinars and online sessions. Reason: Like "Peer-Review," these colors are perceived as affirmative and progress-oriented, useful for submitting data. |
| workshop     |  | #A04B0B  | Workshops and training sessions. Reason: Brown is a rich, earthy color, bringing forth the comforting qualities of a cozy cup of cocoa.                |

| other    |  | #4D4D4D | Default/fallback color for unmapped types |

## Usage

These colors are applied to calendar entry headers in the UI through the `getTypeColor()` function in `type-colors.ts`. The function:

1. Normalizes the input type string to one of the keys above
2. Returns both a background color and text color (white `#ffffff` for all types)
3. Is used in components like `calendar-accordion-item.vue` and `calendar-activity-card.vue`

## Special Notes

- **CBD Green** ( `#009b48` ): This color is reserved for official CBD meetings (COP, SBSTTA, SBI) and is defined as a constant `CBD_GREEN` in the codebase.
- **Text Color**: All type colors use white ( `#ffffff` ) as the text color for optimal contrast and readability.
- **Pattern Matching**: The system uses regex patterns to automatically classify activities into these types based on keywords in their titles or descriptions.
